An exciting **Hackathon** designed to challenge and inspire innovation and creativity

HACKHUB 2026

About Us

Welcome to IEEE Computer Society VIT Chennai's inaugural **gateway into technology beyond classrooms!**

As part of the renowned IEEE and a student chapter of IEEE Computer Society, we are dedicated to cultivating a vibrant community for innovation and uniting top-tier participants. Through interactive events, workshops, and gathering alumni, we foster collaboration, creativity, and lifelong learning.

Join us in exploring the limitless possibilities of technology!

What Is HackHub

Hackhub is a celebration of fresh ideas and collaborative energy, where the brightest minds come together to innovate, collaborate, and create. It's a dynamic hub where passion meets opportunity, and boundaries are meant to be broken. Hackathon, where participants work intensively to solve real-world challenges across domains like AI/ML, Web3, healthcare, sustainability, and beyond.

The event also features insightful 12-hour workshops providing participants with valuable skills and knowledge. The hackathon culminates in a grand presentation, an opportunity for the teams to showcase, build skills, and receive groundbreaking solutions. By supporting hackathons, we empower a new wave of innovators who understand how our organization's commitment to nurturing talent and driving technological progress.

HACKHUB

TRACKS

Choose your path, unlock potential, and leave your mark on the tracks in this dynamic Hackathon and bring their ideas to life.

Health

AIML and Healthcare: Explore the fusion of artificial intelligence and machine learning with healthcare to revolutionize diagnostics, treatment, and patient care.

Health

Healthcare Innovation: Focus on innovations that improve healthcare accessibility, efficiency, and patient outcomes, including telemedicine, wearable technology, and digital health solutions.

Open Innovation

Open Innovation: Embrace boundless creativity and collaboration. Develop solutions that transcend traditional boundaries, fostering a vibrant ecosystem of ideas.

Environmental Sustainability

Environmental Sustainability: Address pressing environmental challenges with innovative solutions. Focus on sustainable practices, renewable energy, and conservation efforts.

Recent Events

Paradox

Paradox was a thrilling competitive coding contest that attracted over 5000 talented students participants. The event challenged them with engaging computational puzzles, fostering a vibrant community of coders and showcasing their problem-solving prowess. The success of Paradox underscores the growing interest in competitive programming among students and the event's role in nurturing the next generation of coding talent.

Bitstorm

Bitstorm was an exhilarating competitive coding contest that attracted over 5000 talented participants. The event challenged participants with a series of complex coding puzzles, showcasing their problem-solving skills and technical prowess. The success of Bitstorm underscores the growing interest in competitive programming among students and the event's role in nurturing the next generation of coding talent.

Break or Thaw

Break or Thaw is an engaging two-hour hackathon aimed at both coders and non-coders who want to venture into hackathons. Participants are tasked to "thaw" a frozen problem statement using their creativity and ingenuity. The event boasts a diverse array of challenges, including AI/ML, web development, and data analysis, ensuring participants can showcase their skills and contribute to meaningful solutions. The success of Break or Thaw underscores the growing interest in collaborative hackathons and the event's role in fostering a vibrant community of innovators.

Why Sponsor us?

- Sponsorship of our hackathon provides a strategic opportunity to enhance your brand visibility and engage with a vibrant community of tech enthusiasts, developers, and innovators. This partnership aligns with your company's commitment to supporting technological advancements and fostering a culture of innovation and collaboration.
- Our hackathon attracts a diverse audience of talented individuals from various backgrounds, including students, professionals, and industry experts. By sponsoring this event, your company will have the opportunity to showcase its products, services, and brand to this audience, potentially identifying future talent and partnerships.
- Sponsorship offers various benefits, including brand exposure, opportunities for networking with attendees, and the chance to demonstrate your company's commitment to supporting technological advancements and fostering a culture of innovation and collaboration.
- VIT Chennai's campus spans 372 acres, with over 35,000 students and 3,000 faculty members. The university is known for its vibrant and diverse community, with students from various backgrounds and regions. The campus is equipped with state-of-the-art facilities, including advanced laboratories, libraries, and recreational spaces, which provide a conducive environment for learning and innovation.
- VIT Chennai's campus is known for its vibrant and diverse community, with students from various backgrounds and regions.
